## PROFESSIONAL SUMMARY

---

Creative problem-solver with a hands-on approach to design, technical, and visual work. I enjoy turning complex ideas into simple, practical, and engaging experiences while finding thoughtful solutions to challenging problems.

## WORK EXPERIENCE

---

### Customer Service and Sales Representative | June 2026 – September 2026

*Printara | Sterling Heights, MI*

- Provide customer support via phone and email, resolving order issues and helping customers throughout the purchasing process.
- Support sales and marketing efforts through social media engagement, customer outreach, and lead generation.
- Create marketing content, including blog posts and other written materials, to promote Printara's products and services.

### Lead Game Designer | June 2024 – December 2024

*Wolverinesoft | University of Michigan, Ann Arbor, MI*

- Designed, developed, and released a single-player real-time strategy game in the Unity Engine on Steam.
- Led the creation of game design documentation, covering mechanical requirements, design intent, and assisting in guiding art direction to ensure alignment of 15 cross-functional developers, artists, designers, etc.
- Responsible for developing 3D assets and animation for character previsualization, assisting in the development of art direction, and delivering standards.
- Implemented various user interface systems for the player's gameplay experience.

### Kitchen Cook and Crew Trainer | January 2024– May 2026

*Buffalo Wild Wings | Warren, MI*

- Trained and mentored new team members on food preparation, safety procedures, and operational standards.
- Ensured consistent food quality by preparing menu items according to company standards and best practices.
- Maintained a clean, organized, and efficient kitchen through regular participation in maintenance and sanitation.

### Technology Instructor | June 2023– August 2023

*ID Tech | Stanford, CA*

- Instructed up to nine students weekly (ages 6–17) in foundational skills across software such as Unreal Engine, Blender, and Roblox Studio.
- Supervised students in both classroom and residential settings, ensuring safety and a positive camp experience.
- Provided student evaluations and communicated with parents, highlighting individual strengths, potential improvement opportunities, and career interests.
- Coordinated with fellow staff to manage daily logistics, including efficient student drop-off and pick-up procedures in a high-traffic campus setting.
